

Security Update

Hi,

We have identified and patched two security vulnerabilities affecting certain Rocket.Chat deployments. Both issues have been resolved in the latest releases. Please read the sections below to see if your workspace is affected.

CVE-2026-28514 | Microservices deployments

Affects workspaces running Rocket.Chat in microservices mode. An authentication vulnerability was identified in the ddp-streamer microservice.

CVE ID (yet to be assigned) | OAuth authentication

Affects workspaces with OAuth authentication enabled. An authentication bypass vulnerability was identified in the OAuth login flow.

What you need to do immediately:

1. **Check your current version:** Log in to your workspace and navigate to Administration > Workspace to find your current version.
2. **Upgrade to a patched version:** Update to one of the following patched versions: 7.10.9, **7.11.6, 7.12.6, 7.13.5, 8.0.3, 8.1.2, 8.2.1 or above**
3. **If unsure which version to choose:** Select the latest patch release within your current major version line.
4. **Rocket.Chat Cloud (version-locked):** If your workspace is locked to a specific version, please request an upgrade via our support team.
5. **Rocket.Chat Standard Cloud (no version lock):** Your workspace has already been automatically upgraded. No action required.
6. **Rocket.Chat Premium/Dedicated Cloud (no version lock):** Your account manager is coordinating the upgrade to minimize disruption and will be in touch to confirm a suitable schedule.

Stay up to date on security updates

As part of our commitment to keeping customers informed, you will soon be automatically enrolled in our security newsletter. Critical updates like this will be shared there as they arise.

We encourage you to review our [security guidelines](#) and ensure your organization adheres to industry best practices to maximize the security of your workspaces.

Please rest assured that your security is our top priority. If you have questions or need assistance with the upgrade, please get in touch with our support team at support@rocket.chat.

Regards,
The Rocket.Chat Team
